Reviews

This publication could be worth a read through, and far better than other. This is certainly for all those who statte there was not a worth reading through. You may like just how the author compose this publication.

(Dr. Kayley Kovacek PhD)

ADOLF LOOS (HARDBACK)

Taschen GmbH, Germany, 2016. Hardback. Condition: New. Language: English . Brand New Book. The devil in the details: The life and times of Adolf Loos Adolf Loos (1870 1933) was a flamboyant character, whose presence in the cultural hotbed of early 1900s Vienna galvanized the country's architectural landscape. An early, impassioned advocate of modernism, he all-out rejected the grand Secessionist aesthetic prevalent in contemporary Viennese architecture, as well as any hallmarks of the European fin de siècle. Instead, in lectures and essays, such as the milestone Ornament and Crime of 1913, Loos articulated his passion for smooth and precious surfaces. He advocated that architectural ornamentation was, by its nature, ephemeral locked into current trends and styles, and therefore, quickly dated. In doing so, it would drag the building it decorated, into obsolescence. Loos, himself a Classicist at heart, argued instead for simple, timeless designs with time-honored aesthetic and structural qualities. Rising to prominence in Vienna in the 1890s with commercial retail projects in the city, Loos developed his signature style, introducing the concept of spatial plan architecture and eschewing decorative fripperies for opulent, fine-quality materials, rendered in crisp lines. Major projects, such as Vienna's Cafe Museum (1899), Loos House (1912), and the fashion store Knize (1913), divided critics, the public, and even royalty Emperor Franz Joseph I would refuse to travel past Loos House, bristling with rage at its insolently minimalist aesthetic. In this introduction to Adolf Loos colorful and inspiring career, we get to explore the writings, achievements, and legacy which continued to resound down the decades, influencing successive styles and generations in the architectural conversation between elaborate and elemental aesthetics.
