The same crop is not grown again after it has been harvested. Man took millenniums to understand the fact that the soil also has a need for essential nutrition, which is going to be reduced slowly and steadily, if one particular crop is going to be grown again and again on that same patch of land. This book is going to tell you how you can gain a lot of benefit through judicious crop rotation. Since ancient times, human beings have known all about the importance of rotating their crops. That is because they have all seen through bitter experience, that a land which is going to get the exact same treatment year after year is going to get less fertile, and is going to deteriorate unless that treatment is ideal. An ideal treatment outside the laboratory is not possible. That is because we do not have the time or the manure or the proper climate, or atmosphere or even the desire to give the perfect treatment to our vegetable garden every season. Nor is it necessary. When you are thinking about crop rotation, you have to remember that...
