Excerpt: . . . books as decorative furniture, but each book was bought to read and study. It required sixteen wagons to transport his ten thousand books to Washington and it was found that they were written in many languages and comprised in their sweep nearly every department of intellectual activity. When he planned the great University, in which I have the honor to speak, his idea of the curriculum was botany, chemistry, zoology, anatomy, surgery, medicine, natural philosophy, agriculture, mathematics, astronomy, biography, politics, commerce, history, ethics, the law, the industrial and the fine arts and in all of these his versatile mind had some proficiency. Few men in recorded history have been more versatile than Jefferson. In this respect he is only surpassed in our history by Franklin and he belongs to the class of universal genius of which Franklin and Leonardo da Vinci were the greatest..

Reviews

This book will never be easy to start on looking at but quite entertaining to read. It is actually packed with wisdom and knowledge It is extremely difficult to leave it before concluding, once you begin to read the book.

The best publication i actually study. I actually have study and so i am confident that i am going to likely to study once more yet again later on. You will not sense monotony at at any moment of your respective time (that's what catalogs are for relating to if you ask me).
