PROFIT FROM 2017 MARKET CRASH (PAPERBACK)

Createspace Independent Publishing Platform, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.

This book explains why we may have a market crash in 2017 and how to prepare for it. It also includes simple techniques (no subscription and no tool to buy) to detect market plunges that have worked in the last two major market plunges. It will not identify the peaks and bottoms (and no one can). It may not give us ample time to prepare as the last two. Our simple chart tells us to exit and reenter only two times since 2000 (in addition to one brief exit and reentry). Recently it told us to return in 09/2009 and stay in the market as of this writing (with some false signals that advise to exit but return shortly). You should use this book as a reference and study market timing before you commit fully. No one including all the Federal Reserve chairmen / chairwomen and all the Nobel-Prize winners in economics can predict market plunges. Actually some celebrities drove the economy to the brink of a crash. The chairman gave a speech saying how rosy was the economy and in a few weeks the housing market crashed. Many predicted correctly market crashes by pure luck and some even received Nobel Prizes and became famous. However, most are one-trick ponies. A best seller with many editions written by a Ph.D. has all the convincing fundamental reasons why there will be a market crash with all kinds of bubbles going to burst. If you followed the book that was published in 2009, you are losing the potential profits from 2009 to today (2016). I bet you cannot time the market without technical analysis. The difference I can pin point good exit and...
