Do not compute the Binet age, Sub-age, etc., until you have compared each response on the Examination Notes with the examples of correct and incorrect responses contained in the method. 42 TESTING JUVENILE MENTALITY 9. Do not conclude that the Binet age is an exact expression of the mental level of the subject. Remember that the Binet age, Sub-age and Super-age are conventions adopted for practical purposes and must be interpreted in the light of the whole test record, of biological data, etc. None but specialists in juvenile mental and physical disorders should attempt to make a diagnosis of mental retardation. 10. Do not confuse the aims and technique of mentality testing with those of clinical or laboratory psychology. Standardized mentality testing is an invaluable preliminary to the more intensive study of certain cases. With immature subjects, i.e., juvenile minds, the brief experimental probing used in applying mentality scales is often the only procedure that yields results of any value. Remember that the fundamental principle here is a standardization (1) of test conditions and (2) of judgments in scoring the responses.
