STYLE AND CONTENT IN DIGITAL IMAGING

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Reconciling Aesthetics with Efficiency in Image Representation | Graphic design draws a fundamental distinction between style and content, as in font and text. Applying the same principle to digital photography, this work proposes a novel image representation that separates the specification of rendering style from the description of informative content, enabling style and content to be saved, changed and reused independently. From the abstract to the figurative, this technique represents images at progressive levels of detail. It also supports...
