Oxford University Press, USA, United States, 2012. Hardback. Condition: New. Revised, Updated ed.. Language: English . Brand New Book. With over one million copies sold, The Undercover Economist has been hailed worldwide as a fantastic guide to the fundamental principles of economics. An economist's version of The Way Things Work, this engaging volume is part Economics 101 and part expose of the economic principles lurking behind daily events, explaining everything from traffic jams to high coffee prices. Showing us the world through the eyes of an economist, Tim Harford reveals that everyday events are intricate games of negotiations, contests of strength, and battles of wits. Written with a light touch...
