## THE EVOLUTION OF AIR BREATHING IN VERTEBRATES

Cambridge University Press. Paperback. Condition: New. 144 pages. Dimensions: 8.8in. x 6.0in. x 0.4in. First published in 1981, this book presents an original approach to an area of great importance in comparative zoology and physiology and evolutionary biology: the evolution of air breathing in vertebrates from aquatic ancestors. The subject is approached from a functional as well as an anatomical viewpoint, utilising knowledge of the physiology of extant animals to trace probable evolutionary steps. Opening with a brief summary of current...
